Dear Commissioner Henney,

The consumption of added sugar has jumped 25 percent since 1984, squeezing healthy foods out of the diet. As a mother of three, and a member of the Center for Science in Public Interest, I urge the FDA to establish a "Daily Reference Value" for added sugar of 40 grams and to require labels to disclose how much added sugar a food contains. In taking these measures, you will enable me and my children to make informed consumer choices at the grocery store.

Sincerely,

Carol Jarvis
